

PSY 305/505: Assignment 2

Submission Deadline: 26th March 2023, 11:59 pm

Total marks: 25 marks

This is a writing assignment where you have to summarise one of the 4 papers provided.

1. Maximum word limit is 1000 words.
2. You only need to summarize first experiment if there is more than one experiment in the paper.
3. You can use figures and diagrams from the paper itself.
4. You can also use other references to support text in the assignment.
5. You can organize the assignment to your convenience or can follow the model of introduction, methods used, result(s) and discussion and your take on the paper.
6. The evaluation would be done in how clearly you could summarise the paper.
7. More than 10% plagiarism will be marked 0 and will be reported to academics.
8. Given it's a summary of a paper you might end up using the same sentences as in the paper...which will add to plagiarism so please pass through plag check software before submitting.
9. Please add references at the end of the assignment and within the text wherever necessary.
